---

Can you provide an agenda for the October 11 meeting as well as the time span you want to meet? I have another task that day that I need to schedule. Sounds like we will wait for a start to negotiations so I do not need to line up DEQ attorneys to attend.

Mavis,  
Yes, I intended all attorneys to include DEQ's attorney and the Oregon Resource Trustee attorney (for NRD) if that is a different individual. However, EPA expects to assign a new attorney to this project and there just may not be enough time to obtain that assign, and get the word out to DEQ, EPA and State and Federal Resource Trustee to schedule the CD kick off by 10/11. The EPA attorney assignment will have to happen quickly in order to attempt it. Perhaps we should look to Mark's next visit to kick off the CD, and just have a post ROD, next steps meeting with the regular project team on October 11. Mark's next visit will likely be early in November.

Chip, What are your thoughts on how quickly the new attorney assignment may be made?

I will be making a visit to a site that day but have not yet set the time. So, morning or afternoon would work. It would be good to know as soon as possible whether your preference is for a morning or afternoon meeting so I can get my other item scheduled.

By all attorneys, do you include DEQ and is this an order negotiation meeting? If so, the we would need to determine who would attend from DEQ.

Chip, Mavis,  
Mark Stiffler will be in the northwest October 11 and would like to schedule a meeting to discuss the next steps for the Troutdale site, assuming the Final ROD is issued. If the new EPA attorney has been assigned we would like to also invite all the attorneys and include the NRD. Please let me know if October 11 fits in your schedule?
